

The Ivy Edge Research Program: Overview

What is The Ivy Edge Research Program?

A student-directed, project-based research experience, the program includes:

- Ten (10) online, one-on-one sessions with an expert mentor
- Mentor chat for question
- Student workspace with built-in organization tools
- Two (2) rounds of feedback from a writing fellow
- Access to the showcasing opportunity database

By creating tangible outcomes from their research, students develop the skills they need for both college and career readiness, and develop a sense of purpose. The program offers a space where curiosity thrives, students learn they're capable of more than they ever thought possible, and build momentum and enthusiasm for their future.

Program Duration and Overview

Mentored Research Projects

Get matched with an **expert mentor** to research any topic of your choice.

Your Topic

Dive into **any topic you're passionate about**, or combine your passions into something truly unique.

Your Outcome

Write a research paper, create an app, build a prototype, record a podcast—**choose the outcome that excites you!**

10 Sessions

Hour-long **one-on-one Zoom meetings with your mentor** to discuss your progress, readings, and get assignments.

3-5 Hours/Week

Work on your project between each session to make progress based on your mentor's advice.

3-6 Months

Program duration is **flexible**. You can put in more or less work as your schedule allows.
